

I believe Air1 station in my area is very valuable to the community. Air1 plays positive upbeat Christian music unlike any station I have heard. This gives many people an alternative to the less desirable music many larger stations play. Air1 also provides 24 hour counseling. The number and an open invitation is incorporated into the music every hour. The LPFM broadcasters would displace Air1 from the area they serve. Please consider this fact carefully as you make important decisions concerning our air waves.
